SUCCESSFUL IMPLEMENTATION OF ASYCUDAWORLD SYSTEM VERSION 4.4.1

The Namibia Revenue Agency (NamRA) is pleased to inform all stakeholders that the upgrade of the ASYCUDAWorld system to Version 4.4.1 has been successfully completed and is now fully operational.

Effective immediately, all trade-related transactions will be processed through the upgraded system, which introduces enhanced functionalities, improved efficiency and streamlined procedures in line with international best practices.

Stakeholders are reminded that the upgraded system supports a transition towards a paperless environment. As such, online submissions remain mandatory for applicable procedures, with system-generated documents serving as official records for clearance processes.

NamRA appreciates the cooperation and support of all stakeholders during the upgrade process and encourages continued compliance with the updated procedures to ensure seamless trade facilitation. For enquiries or technical support, stakeholders may contact:
